

If you wish to keep your electromechanical meter, do not use the Opt-out option

If you call HQ, your meter will be changed for a digital meter that emits dirty electricity and you will be charged for the new meter plus 17 \$/month. If you want to KEEP your electromechanical meter – follow the instructions below:

AVERTISSEMENT!

**NE PAS INSTALLER DE COMPTEUR
ÉMETTEUR DE RF À CE DOMICILE**

NI DE PREMIÈRE GÉNÉRATION
NI DE DEUXIÈME GÉNÉRATION

1. Place a plasticized **Refuse Notice** on your meter. Take a picture of your meter with the notice, from far to identify your home and up-close to identify the notice. Include a copy of the **Public notice** and your letter of notice of non-consent.

2. Hydro-Quebec can install a new meter **ONLY** if you give them access to it.

3. Send **immediately** a copy of your notice of non-consent to Hydro-Quebec by **registered mail** and by **e-mail those on c.c.** Both the letter and your photos constitute your written refusal.

See document with e-mails

For those with a radiofrequency meter, “intelligent” or not, you have three choices. We do not have them in English yet.

- The first formal notice is if you were already EHS when it was installed;
- The second if you became EHS once installed and
- The third one if you want to apply the Precautionary Principle.
